After a six-week grade reporting period or after the first six weeks of a semester or grade reporting period, in the case of a district with a reporting period longer than six weeks, a child who receives a grade below 70 is suspended from participation in extracurricular activities for three weeks, and for three week intervals thereafter if all grades are not above 70.
- A suspended student may practice or rehearse with other students for an extracurricular activity but may not participate in a competition or other public performance.
- Provides that a student enrolled in a school district who participates in an extracurricular activity or UIL competition is subject to school district policy and UIL rules regarding participation only when the student is under the direct supervision of an employee of the school or district in which the student is enrolled or at any other time specified by resolution of the board of trustees of the district.
- Requires all UIL rules approved for the current year.

This rule is an effort to stress the importance of education.
